70004-0913-28	Sugammadex 50 mg/mL in Sterile Water for Injection 4 mL Fill Syringe (200 mg/4 mL)	FDP	120 Days

Finished Drug Product (FDP): FDP compounding and repackaging uses an FDA-approved drug as the starting material which is aseptically processed into ready-to-use, single-dose products.

### Benefits of Sugammadex Diluted Syringes

#### Waste Reduction

Nothing left behind with quick, flexible dosing available for immediate use.

#### Ready-To-Use

Ready-to-use reducing bedside manipulations and medication errors.

#### BUD Verified by Stability

Convenient product with a BUD backed by stability testing.

#### Preferred Product

In addition to Sugammadex being the preferred reversal agent for rocuronium and vecuronium by American Society of Anesthesiologists<sup>1</sup>, a ready-to-use syringe is the preferred presentation for OR products.
